

Annual Report 2021-22 Indian Institute of Information Technology Kalyani

A. About IIC Institute

Vision / Mission of IIC established at the Institute

Vision

Establish an ecosystem to pre-incubate and nurture the innovative ideas of students and faculty members

Mission

Encourage better cognitive ability among students and develop a start-up/entrepreneurship supporting mechanism in the Institute

Journey of IIC established at the Institute

The IIC of IIIT Kalyani was established in December 2018. During that time it was supported by the IIC of the mentor institute IIT Kharagpur. The students and faculty members of IIC visited the mentor institute incubation centre for exposure on various activities. Since that time, the IIC of IIIT Kalyani is working towards developing the awareness about innovation, start-up and entrepreneurship among students and faculty members. The Institute has already signed MOU with two start-up industries and students are joining these industries during their internship programs. Several lecture series on IPR, Entrepreneurship by start-up CEOs and academicians were also arranged by IIC to encourage the students.

Student achievements:

Diversified representation in the IIC established at the institute from industry, Interdisciplinary & Departments/ Units etc.

IIC of IIIT Kalyani is constituted with faculty members from different disciplines, Industry personnel and experts from other Institutes and few selected students from different batches. Detail structure of the cell is as follows-

Event Details

IIC, IIIT Kalyani conducted an intra-college ideation fest Ideathon 2022, on February 26-27. The event was an effort to nudge candidates to come up with innovative solutions to some of the most imperative challenges of our time.

The event bore witness to illustrious entrepreneurs as panelists. Sai Charan Kommana, CEO and Co-Founder at Forevv, and Aarnav Jindal, Product Manager at Scaler, along with distinguished professors of IIIT Kalyani :Dr. Pratik Chakraborty, Dr. Sanjay Chatterji, Dr. Oishila Bandyopadhyay and Dr. Dalia Nandi made up the judgment panel.

Amongst 25 teams that participated in the internal screening round, 10 teams progressed to the panelists round, where they pitched their ideas as well as their solution to the panelists. The event opened with Sai Charan Kommana giving a talk on the pathways to foster entrepreneurial mindset within the students, followed by the presentations of the teams. The event was immense in terms of the quality of the solutions proposed. Panelists apprised invaluable inputs to the teams to expedite the implementation of their ideas. The teams were contesting for a combined prize pool of Rs. 20,000.

After a grueling battle of ideas, Team Kraayon composed of Varun Jaiswal and Aayush Gupta of Batch of 2025 emerged victorious, courtesy of their brilliant idea “Tech-Tor” . An outstanding effort by Vedant Mishra and Ishan Mishra saw them secure second and third places respectively. Team OG_Farms comprising of Hamdaan Ali, Oindrila Das and

Nikhil Laxminarayana, received a special prize for the best idea presented by a team from the first year. The event ended with a vote of thanks by Dr. Oishila Bandyopadhyay, President, IIC.

The event was indeed a resounding success, nudging the students across batches to collaborate on their ideas and polish them. An environment of collaboration and innovation was certainly fostered with the help of panel members, who provided intricate value additions that will lead these ideas to the brink of success.

The problem

Company	Context	Problem statement
Our company provides a platform to connect skilled/unskilled daily-wage workers to the customers across the villages, towns and cities to provide them work on daily basis.	Rising unemployment in daily wage workers have given rise to this idea. One day, our teammate Shiv saw a crowd of people in the morning searching for jobs and this inspired us to create platform such that we can connect people who are in need.	<ul style="list-style-type: none">There are rules and regulations but these are not followed. Jobs here are low-paid and often not regular.There is no provision for overtime, paid leave, holidays, leave due to sickness etc.Employment is not secure. Workers don't get jobs on a daily basis. They also have to maintain contacts with the customers.They have to travel a long distance in search of work.
